Globus Medical, Inc. Secures Jury Verdict in Delaware Patent Litigation Against Life Spine, Inc.

August 28, 2025

AUDUBON, Pa., Aug. 28, 2025 (GLOBE NEWSWIRE) -- Globus Medical, Inc. (NYSE: GMED), a leading musculoskeletal technology company, announced that a Delaware jury has returned a verdict in favor of Globus in its patent infringement litigation against Life Spine, Inc.

The jury found that Life Spine's Prolift family of implants infringed several claims of a valid Globus patent and awarded Globus both lost profits and reasonable royalty damages. The technology at issue involves expandable spinal fusion implants, an important advancement in patient care that can help improve outcomes in spinal surgery.

"We are pleased with the jury's decision, which affirms the strength of our intellectual property and the groundbreaking innovation behind our expandable implant technologies," said Keith Pfeil, President and Chief Executive Officer. "This verdict underscores Globus's place as a leading innovator in the musculoskeletal field."

In addition to the Life Spine case, Globus has a separate patent infringement litigation pending against Alphatec, Inc. involving expandable implant and retractor technology. The company stated that it remains committed to protecting its intellectual property while continuing to focus on innovation that benefits patients worldwide.

"We invest in research and development to bring transformative solutions to patients worldwide," added Kelly Huller, Executive Vice President and General Counsel. "We will not hesitate to enforce our patent rights against those who attempt to use our technology without authorization."

Safe Harbor Statements
All statements included in this press release other than statements of historical fact are forward-looking statements and may be identified by their use of words such as "believe," "may," "might," "could," "will," "aim," "estimate," "continue," "anticipate," "intend," "expect," "plan" and other similar terms. These forward-looking statements are based on our current assumptions, expectations and estimates of future events and trends. Forward-looking statements are only predictions and are subject to many risks, uncertainties and other factors that may affect our businesses and operations and could cause actual results to differ materially from those predicted. These risks and uncertainties include, but are not limited to, the risks and costs associated with the integration of the NuVasive and Nevro businesses and our ability to successfully integrate and achieve anticipated synergies with the integration, health epidemics, pandemics and similar outbreaks, factors affecting our quarterly results, our ability to manage our growth, our ability to sustain our profitability, demand for our products, our ability to compete successfully (including without limitation our ability to convince surgeons to use our products and our ability to attract and retain sales and other personnel), our ability to rapidly develop and introduce new products, our ability to develop and execute on successful business strategies, our ability to comply with laws and regulations that are or may become applicable to our businesses, our ability to safeguard our intellectual property, our success in defending legal proceedings brought against us, trends in the medical device industry, general economic conditions, and other risks. For a discussion of these and other risks, uncertainties and other factors that could affect our results, refer to the disclosure of Globus Medical contained in our most recent annual report on Form 10-K filed with the U.S. Securities and Exchange Commission, including the sections labeled "Risk Factors" and "Cautionary Note Concerning Forward-Looking Statements," and in our Forms 10-Q, Forms 8-K and other filings with the U.S. Securities and Exchange Commission. These documents are available at www.sec.gov. Moreover, we operate in an evolving environment. New risk factors and uncertainties emerge from time to time, and it is not possible for us to predict all risk factors and uncertainties, nor can we assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. Given these risks and uncertainties, readers are cautioned not to place undue reliance on any forward-looking statements. Forward-looking statements contained in this press release speak only as of the date of this press release. We undertake no obligation to update any forward-looking statements as a result of new information, events or circumstances or other factors arising or coming to our attention after the date hereof.
