Globus Medical Reports Second Quarter 2021 Results

AUDUBON, PA, August 4, 2021: Globus Medical, Inc. (NYSE: GMED), a leading musculoskeletal solutions company, today announced its financial results for the quarter ended June 30, 2021.

- Worldwide net sales were \$251.0 million, an increase of 68.6% as compared to the second quarter of 2020
- GAAP net income for the quarter was \$41.5 million, or 16.6% of net sales, which is an increase of 299.4% as compared to the second quarter of 2020
- GAAP diluted earnings per share (“EPS”) was \$0.40 and non-GAAP diluted EPS was \$0.56
- Non-GAAP adjusted EBITDA was \$87.8M, or 35.0% of net sales

“Revenue in the second quarter was a record \$251 million, an increase of 69% over the second quarter of 2020, as we continue to capture market share,” said Dave Demski, President and CEO. “Our U.S. Spine business grew by almost 64% over the second quarter of 2020, and by 30% over the second quarter of 2019. Pull through from robotics; contributions from new product introductions; a resurgence in our biologics business; and competitive recruiting were all factors driving growth. Enabling Technologies revenue was \$21 million, nearly 4x the second quarter of 2020, marking our third consecutive quarter of strong year-over-year growth.”

Worldwide net sales for the second quarter of 2021 was \$251.0 million, an as-reported increase of 68.6% over the second quarter of 2020, or an increase of 67.9% on a constant currency basis. U.S. net sales for the second quarter of 2021, including robotics, increased by 71.9% compared to the second quarter of 2020. International net sales for the second quarter of 2021 increased by 51.0% over the second quarter of 2020 as-reported and increased 47.1% on a constant currency basis.

GAAP net income for the second quarter of 2021 was \$41.5 million, an increase of 299.4% over the same period last year. GAAP diluted EPS for the second quarter of 2021 was \$0.40, compared to (\$0.21) for the second quarter 2020. Non-GAAP diluted EPS for the second quarter of 2021 was \$0.56, compared to \$0.07 in the second quarter of 2020, an increase of 691.2%.

The Company generated net cash from operating activities of \$59.2 million and non-GAAP free cash flow of \$50.8 million during the second quarter of 2021. Cash, cash equivalents and marketable securities were \$914.2 million as of June 30, 2021. The Company remains debt free.

2021 Annual Guidance

The Company today increased guidance for full year 2021 net sales from \$925 million to \$950 million and non-GAAP diluted earnings per share of \$1.89 to \$2.00.

Conference Call Information

Globus Medical will hold a teleconference to discuss its second quarter 2021 results with the investment community at 4:30 p.m. Eastern Time today. Globus invites all interested parties to join the call by dialing:

1-877-313-2501 United States Participants

1-929-517-0907 International Participants

There is no pass code for the teleconference.

For interested parties who do not wish to ask questions, the teleconference will be webcast live and may be accessed through a link on the Globus Medical website at www.globusmedical.com/investors.

The call will be archived until Wednesday, August 11, 2021. The audio archive can be accessed by calling 1-855-859-2056 in the U.S. or 1-404-537-3406 from outside the U.S. The passcode for the audio replay is 136-3916.

About Globus Medical, Inc.

Globus Medical, Inc. is a leading musculoskeletal solutions company based in Audubon, PA. The company was founded in 2003 by an experienced team of professionals with a shared vision to create products that enable surgeons to promote healing in patients with musculoskeletal disorders. Additional information can be accessed at www.globusmedical.com.

Non-GAAP Financial Measures

To supplement our financial statements prepared in accordance with U.S. generally accepted accounting principles ("U.S. GAAP"), management uses certain non-GAAP financial measures. For example, non-GAAP Adjusted EBITDA, which represents net income before interest income, net and other non-operating expenses, provision for income taxes, depreciation and amortization, stock-based compensation expense, provision for litigation, acquisition related costs/licensing, and acquisition of in-process research and development, is useful as an additional measure of operating performance, and particularly as a measure of comparative operating performance from period to period, as it is reflective of changes in pricing decisions, cost controls and other factors that affect operating performance, and it removes the effect of our capital structure, asset base, income taxes and interest income and expense. Our management also uses non-GAAP Adjusted EBITDA for planning purposes, including the preparation of our annual operating budget and financial projections. Provision for litigation represents costs incurred for litigation settlements or unfavorable verdicts when the loss is known or considered probable and the amount can be reasonably estimated, or in the case of a favorable settlement, when income is realized. Acquisition related costs/licensing represents the change in fair value of business-acquisition-related contingent consideration; costs related to integrating recently acquired businesses, including but not limited to costs to exit or convert contractual obligations, severance, and information system conversion; and specific costs related to the consummation of the acquisition process such as banker fees, legal fees, and other acquisition related professional fees, as well as one-time licensing fees. Acquisition of in-process research and development represents the expensing of acquired assets with no alternative future use and related fees.

In addition, for the period ended June 30, 2021 and for other comparative periods, we are presenting non-GAAP net income and non-GAAP Diluted Earnings Per Share, which represent net income and diluted earnings per share excluding the provision for litigation, amortization of intangibles, acquisition related costs/licensing, acquisition of in-process research and development, and the tax effects of all of the foregoing adjustments. The tax effect adjustment represents the tax effect of the pre-tax non-GAAP adjustments excluded from non-GAAP net income. The tax impact of the non-GAAP adjustments is calculated based on the consolidated effective tax rate on a GAAP basis, applied to the non-GAAP adjustments, unless the underlying item has a materially different tax treatment, in which case the estimated tax rate applicable to the adjustment is used. We believe these non-GAAP measures are also useful indicators of our operating performance, and particularly as additional measures of comparative operating performance from period to period as they remove the effects of litigation, amortization of intangibles, acquisition related costs/licensing, acquisition of in-process research and development, and the tax effects of all of the foregoing adjustments, which we believe are not reflective of underlying business trends. Additionally, for the period ended June 30, 2021 and for other comparative periods, we also define the non-GAAP measure of free cash flow as the net cash provided by operating activities, adjusted for the impact of restricted cash, less the cash impact of purchases of property and equipment. We believe that this financial measure provides meaningful information for evaluating our overall financial performance for comparative periods as it facilitates an assessment of funds available to satisfy current and future obligations and fund acquisitions. Furthermore, the non-GAAP measure of constant currency net sales growth is calculated by translating current year net sales at the same average exchange rates in effect during the applicable prior year period. We believe constant currency net sales growth provides insight to the comparative increase or decrease in period net sales, in dollar and percentage terms, excluding the effects of fluctuations in foreign currency exchange rates.

Non-GAAP adjusted EBITDA, non-GAAP net income, non-GAAP diluted earnings per share, free cash flow and constant currency net sales growth are not calculated in conformity with U.S. GAAP. Non-GAAP financial measures have limitations as analytical tools and should not be considered in isolation or as a substitute for financial measures prepared in accordance with U.S. GAAP. These measures do not include certain expenses that may be necessary to evaluate our liquidity or operating results. Our definitions of non-GAAP

adjusted EBITDA, non-GAAP net income, non-GAAP diluted earnings per share, free cash flow and constant currency net sales growth may differ from that of other companies and therefore may not be comparable.

Safe Harbor Statements

All statements included in this press release other than statements of historical fact are forward-looking statements and may be identified by their use of words such as “believe,” “may,” “might,” “could,” “will,” “aim,” “estimate,” “continue,” “anticipate,” “intend,” “expect,” “plan” and other similar terms. These forward-looking statements are based on our current assumptions, expectations and estimates of future events and trends. Forward-looking statements are only predictions and are subject to many risks, uncertainties and other factors that may affect our businesses and operations and could cause actual results to differ materially from those predicted. These risks and uncertainties include, but are not limited to, health epidemics, pandemics and similar outbreaks, including the COVID-19 pandemic, factors affecting our quarterly results, our ability to manage our growth, our ability to sustain our profitability, demand for our products, our ability to compete successfully (including without limitation our ability to convince surgeons to use our products and our ability to attract and retain sales and other personnel), our ability to rapidly develop and introduce new products, our ability to develop and execute on successful business strategies, our ability to comply with laws and regulations that are or may become applicable to our businesses, our ability to safeguard our intellectual property, our success in defending legal proceedings brought against us, trends in the medical device industry, general economic conditions, and other risks. For a discussion of these and other risks, uncertainties and other factors that could affect our results, you should refer to the disclosure contained in our most recent annual report on Form 10-K filed with the Securities and Exchange Commission, including the sections labeled “Risk Factors” and “Cautionary Note Concerning Forward-Looking Statements,” and in our Forms 10-Q, Forms 8-K and other filings with the Securities and Exchange Commission. These documents are available at www.sec.gov. Moreover, we operate in an evolving environment. New risk factors and uncertainties emerge from time to time and it is not possible for us to predict all risk factors and uncertainties, nor can we assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. Given these risks and uncertainties, readers are cautioned not to place undue reliance on any forward-looking statements. Forward-looking statements contained in this press release speak only as of the date of this press release. We undertake no obligation to update any forward-looking statements as a result of new information, events or circumstances or other factors arising or coming to our attention after the date hereof.
